

FUTURE SCHOOL/ A SCHOOL WITHOUT WALLS

Presented by:
Principal of Vilnius Duke
Gediminas Progymnasium
Rimantas Remeika

21-08-2024

SCHOOL - A PHASE OF A CHILD'S LIFE IN THE GIVEN TIME PERIOD

Vision: School and learning are not just preparation for life—school is life.

Goal: Teach students to solve real-life problems, and by accumulating their problem-solving experiences, achieve maximum personal well-being without violating societal norms.

Mission: By collaborating and combining theoretical knowledge with practical problem-solving, create a learning environment that meets the evolving needs of a progressive world.

Assumptions

Conditions

Activities

ASSUMPTIONS

School
Philosophy
and Culture

Internal
Communication

Inter-Community
Agreements

Trust

Courage and
Curiosity

CONDITIONS (I)

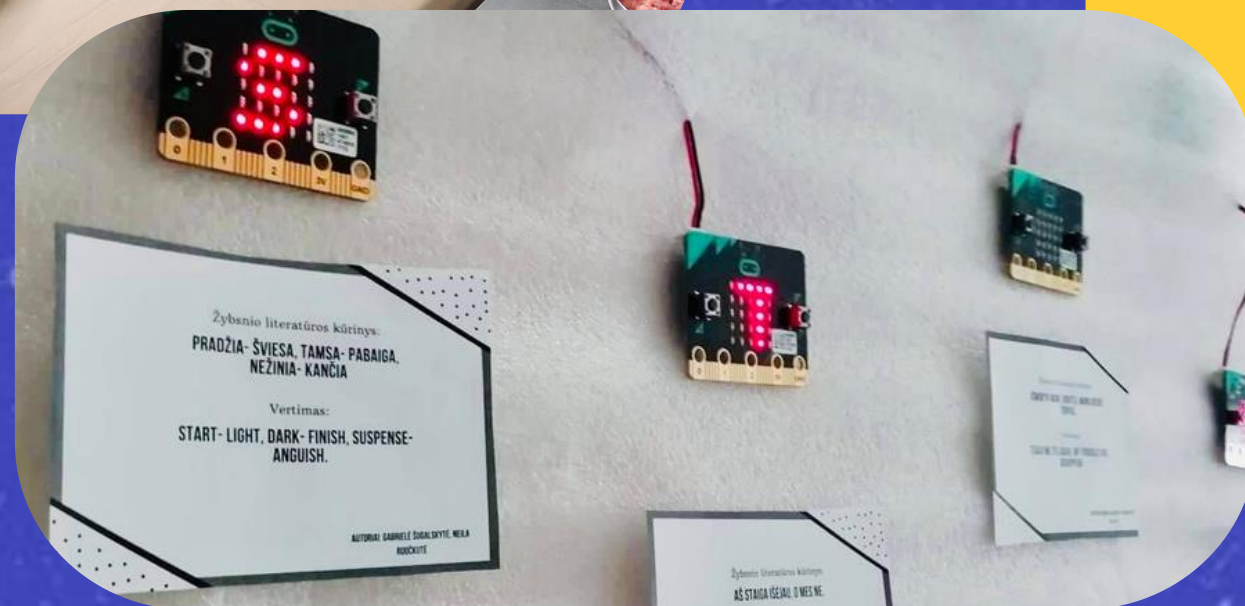

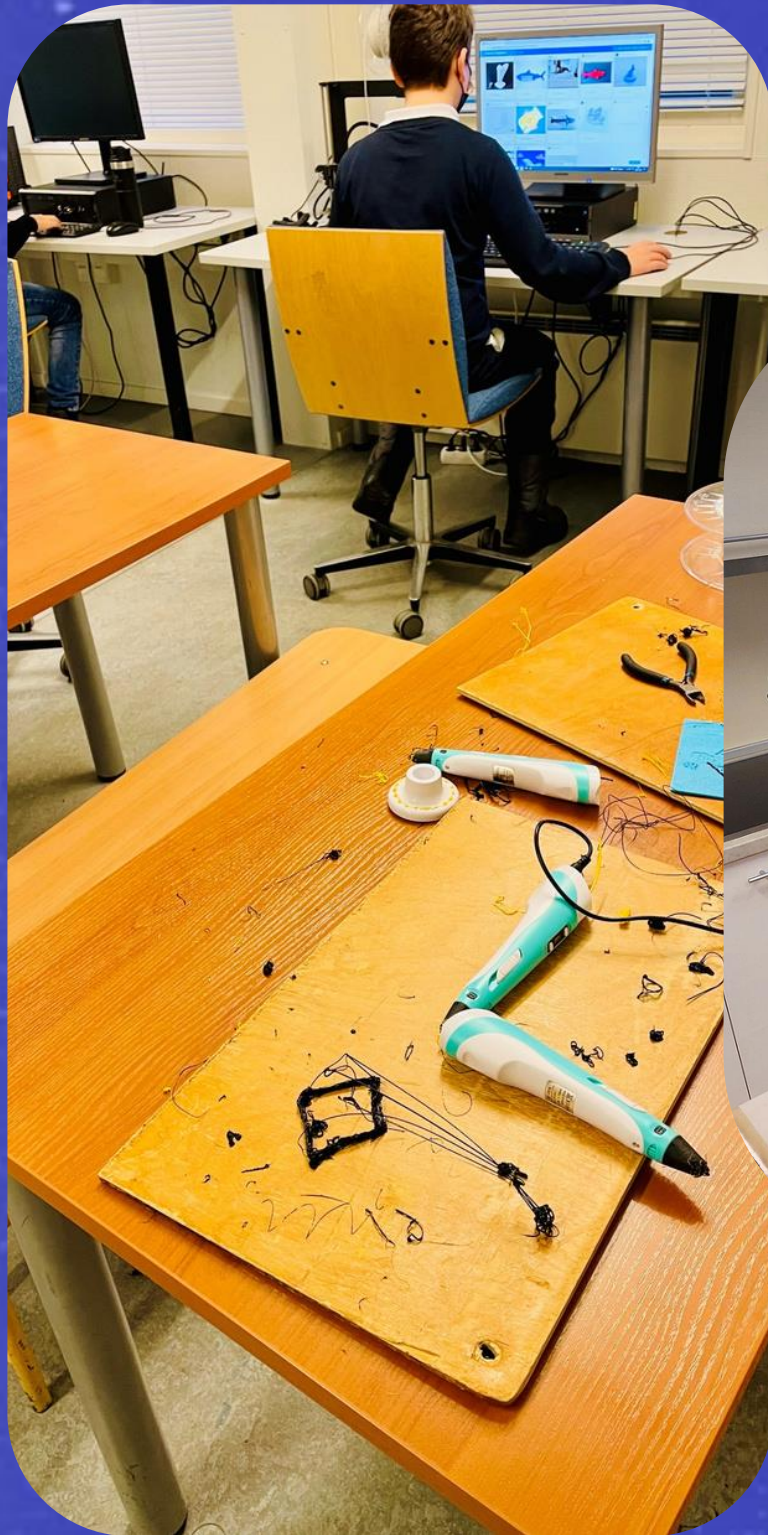

- Discovery of self by the child
- Creation of learning environments in the school
- Learning through practice
- The diminishing boundary between formal and informal education
- The elimination of classroom boundaries by walls and the time constraints of lessons

CONDITIONS (II)

- Synthesis of remote and direct education
- Formulation of tasks for activities and diversity of assessment forms
- Provision of technological equipment
- Change in the forms of teacher's work remuneration
- A universal motivational system

ACTIVITIES

- Lesson – Excursion
- Integrated activities
- Practical group activities
- Time-unrestricted independent activities in various specialized zones of the school and outdoor spaces
- Educational activities in city spaces, museums, and specialized production companies

SYNERGY

SCHOOL COMMUNITY:
Agreements on how we
work and what we aim to
achieve

MUNICIPALITY:
Motivational System

STATE:
Documents regulating the
educational process
